

Quantum Accounting Version 7.0

Installation CD Request Form

Quantum V7.0 is available at no cost to users who subscribe to our Annual Maintenance Program. Installation CD's will be shipped on request once the version has been released. We strongly recommend that you apply for the installation CD only when you are ready to install the upgrade and thereby avoid the need to download post-release service packs that are inevitable with every major release.

Please complete and either post or fax to Desktop Financials Ltd.
